School Grounds to be Fenced

A meeting of the local school board was held at the school house on Friday night last and, adjourned to Monday night. Considerable business was transacted.

Mr. Conway's account as presiding examiner at the high school examinations for \$25 occupied the attention of the board for some time. Mr. Dutil felt that in consideration of the fact that Mr. Conway's time was already being well paid for in regular salary that a further claim on the district for time already being paid for was not justified, and suggested that said \$25 be paid providing regular salary be cut out for the examination period. Mr. Hamilton moved that Mr. Conway be allowed \$5 per day for the five days as presiding examiner, and on strong protest being raised by Mr. Dutil, Mr. Chappell moved an amendment to the effect that \$15 per day be allowed and that regular salary be deducted for the five-day examination period. The amendment was supported by Chappell, Hamilton and McPhail, and opposed by Mr. Dutil. The amendment carried.

A special meeting would be called for Monday, July 5th, for the purpose of setting a mill rate for the year.

It was decided to discontinue and dismantle the room in the Rahal block, occupied by Miss Gavelin's room.

An agent for McConnell's maps attended the meeting and succeeded in selling the board three sets of maps for a consideration of \$147.00. Mr. Dutil objected to the purchase of the European set, stating that for a time the maps may be alright for a private house, but in view of the fact that many changes will be effected in the map of Europe within the next twelve months the purchase of the set at the present time constituted an extravagant expenditure.

It was decided to advertise for tenders for painting the main school grounds and fencing the school grounds.

Anglican Church

Service next Sunday, July 4th, will be at 11 a.m., conducted by the Very Rev. Archdeacon Hayes, of Calgary, to be followed by Holy Communion. Service will be at Coleman at 7 p.m.

In our last issue we overlooked referring to the visit to Blairmore of Miss Noble, provincial president of the Women's Institute, and Mrs. McIvor, of Cowley. Miss Noble addressed a meeting of local women at the Mission hall, and outlined the history of the Institute, its aims, the various methods used and the results obtained. Branches of the Women's Institute are to be found in nearly every country of the world. The organization is strictly international and undenominational and stands for "Unity." Miss Noble spoke very highly of the work done by the Red Cross societies. In many instances the Red Cross and Women's Institute worked as one during the war. Now that the war is over, there is not so much need of Red Cross work as there is of improvements in our communities. "If there is to be peace," she remarked, "we must educate for peace. No need of going into other countries to find lack of education. Boys and girls in our own province were growing up to manhood and womanhood who can neither read nor write. Home is the starting point for true education." In conclusion Miss Noble urged the importance of scholarships, clean and healthy recreations for boys and girls, betterment of homes and the general improvement of each community.

A fortune without a man behind it is a misfortune.

I. O. O. F. Joint Installation

Arrangements are about complete for the I. O. O. F. joint installation, which is to take place in Bellevue Oddfellows' hall on Monday evening next.

The officers of several Rebekah lodges will be installed at 6.30, following which the officers of Pincher Creek, Cowley, Coleman, Blairmore and Bellevue subordinate lodges will be installed.

About fifty members of Michel and Earnie lodges will be present, and about the same number of members of Cowley and Pincher Creek. The deputy grand master, Major W. B. Burnett, of Lethbridge, will attend the ceremonies in his official capacity, as representative of the Grand Lodge of Alberta.

A good after programme has been arranged, and during the period of the I. O. O. F. session, the visiting Rebekahs will be the guests of local Rebekahs to a special picture show at the Rex Theatre.

All Oddfellows and Rebekahs are urgently requested to be present and help make the affair a success. During the after programme, the hall of Bellevue lodge will be formally dedicated.

Visiting Oddfellows and Rebekahs are cordially invited to attend Monday's functions at Bellevue.

Presentation of Attendance Prizes

A most interesting affair was pulled off at the local school on Saturday afternoon last, when on behalf of the citizens of the town the successful pupils in all grades of the public school were presented with prizes for attendance during the term. Prizes in all cases were valuable and appropriate. The children were lined up by their respective teachers on the grounds at the rear of the school building—some two hundred and fifty in number. Mr. Hamilton, chairman and spokesman of the board, presided. Interesting and instructive addresses were given by Rev. Father Cosman, Mr. F. M. Harvey, Rev. W. T. Young, Principal Conway and others.

Prizes were awarded as follows:

PRIMARY GRADE	
GIRLS	PERCENTAGE
1st prize—Mary Aschacher	100
2nd prize—Lily Marcell	99.5
Boys	
1st prize—Mike Koleske	92.50
2nd prize—Andrew Chala	92.50
GRADE I.	
GIRLS	
1st prize—Dolly Evans	96.7
2nd prize—Bessie Hamilton	87.5
Boys	
1st prize—John Harrison	88
2nd prize—Colin MacDonald	87.5
GRADE II.	
GIRLS	
1st prize—Florence North	97.3
2nd prize—Jolia Johnston	88.5
Boys	
1st prize—John Chala	94.5
2nd prize—Tom Grant	80.5
GRADE III.	
GIRLS	
1st prize—Nina Passmore	97
2nd prize—Erene Chappell	94
Boys	
1st prize—Duncan Hamilton	90
2nd prize—Charles MacDonald	80
GRADE IV.	
GIRLS	
1st prize—Fanny Fabro	93
2nd prize—Elsie Stebbings	92
Boys	
1st prize—William Robbins	92
2nd prize—Percy Anderson	86
GRADE V.	
GIRLS	
1st prize—Clara McDonald	81.5
2nd prize—Lillian Crowder	79.8
Boys	
1st prize—Eric Hornquist	78.6
2nd prize—Donald McMillan	78.6
GRADE VI.	
GIRLS	
1st prize—Mary Sartoris	80.6
Boys	
1st prize—John Lloyd	80.1
GRADE VI-SENIOR	
GIRLS	
1st prize—Alice Knight	78
Boys	
1st prize—Frank McLeod	84.5
GRADE VII.	
GIRLS	
1st prize—Benvenuta Post	92.3
2nd prize—Eleanor Farmer	90.9
Boys	
1st prize—Robert Thompson	91.1

Canada And Its Future

With the celebration of Dominion Day, Canada completed the fifty-third year of Confederation and was launched on another year of effort and it is to be hoped, large national achievement. Judging by some standards the growth and development of Canada during the first half century since Confederation became an accomplished fact has been slow, measured by other standards it has been rapid. In all material respects it has been solid and the foundations laid permanent and good.

Those who incline to the view that our growth has been too slow, and who point to the difficulty of obtaining immigration, and even of retaining native born Canadians at home, resulting in a present population of but little more than eight millions of people, should not overlook the fact that geographically this country is so located and divided that it did not lend itself to great growth in population in the earlier years. Great natural barriers had to be overcome, and enormous expenditures made in order to lay the foundations upon which to rear a nation. Much of this work has now been accomplished, and the next fifty years should record developments which will place this country in the front rank of the world's great commonwealths.

Even as recently as fifteen years ago, the great Provinces of Saskatchewan and Alberta, with their present population of approximately 1,500,000 had not been organized, while Manitoba was still in a pioneer stage of development, and the possibilities of British Columbia were but dimly guessed at. Fifteen years may be quite a span in a man's life, but it is but as a fleeting minute in the history of a nation, and the 2,500,000 people now west of the Great Lakes gives promise of a wonderful future.

Since Confederation, Canada has accomplished some amazing things in a material sense. Always a great agricultural country, it has become a great manufacturing country, an important financial country, and now it is undoubtedly on the eve of a truly remarkable development of its enormous wealth of natural resources, a development which is to be made possible because of the growing needs of the world for those things which Canada can supply, and the fact that this country now enjoys the financial means to carry on such development.

With its great railway systems, the development of its waterways, the creation of a really creditable and rapidly growing merchant marine, its strong financial institutions, all that Canada now requires to make good the prophecy "the twentieth century belongs to Canada" are more people to engage in productive enterprises, and the cultivation of a truly national spirit which will forever lay at rest the old and bitter racial and religious antagonisms which have so often retarded our growth and divided our people into hostile camps.

While in some respects the Great War served to re-awaken these old antagonisms and create new divisions, Canada's splendid participation in the great world struggle for freedom has also served to create a real national spirit. Canada found itself and discovered its soul in that bitter struggle. The nations of the world also discovered Canada. The bitter and narrow political partisanship of for-

mer years has been destroyed, and Canadians are now determined to make use of their material strength and resources to develop those other things which make for the health, happiness, contentment and uplift of the whole nation, and the people who themselves constitute the nation.

Canada has entered upon its fifty-fourth year with a minimum of industrial unrest prevailing in its midst, and with the brightest of prospects for a bountiful yield from its fertile fields. It has succeeded in passing through the first two years of the so-called reconstruction period safely and with enhanced credit; its army of returning soldiers have been rehabilitated in civilian life; its trade and commerce is expanding; most important of all its people are deeply interested than ever before in raising the standard of education, of creating better health conditions, of lifting the political life of the country on to a higher plane.

Canada has great opportunities and a great future. But it is calling for the best in every individual Canadian to realize these things in their fulness. They demand a broad spirit of tolerance, a sympathetic appreciation of the rights and opinions of others, and hard work along productive lines by all. If such a spirit prevails, and is intensively cultivated, Canada is on the highroad to true greatness and abounding prosperity.

Tried Them and Now Is Satisfied

MADAM LANDRY TELLS WHAT DODD'S KIDNEY PILLS DID FOR HER

New Brunswick Lady Who Had Tried Other Medicines Claims She Found the Remedy She Was Looking For in Dodd's Kidney Pills.

St. Leon, N.B., June 28th. (Special) Among the many women who claim they owe their health to Dodd's Kidney Pills, none is more enthusiastic than Madam D. Landry, a highly esteemed resident here. "It is with great pleasure that I recommend Dodd's Kidney Pills," Madam Landry says. "I was ill for a long time and nothing I took relieved me. I read a lot of the good Dodd's Kidney Pills did for others, but I had not much faith in them. At last, after having tried a lot of other medicines, I decided to give Dodd's Kidney Pills a trial. The result has brought me perfect health. I am convinced as I have been that they are the remedy for kidney disease. Dodd's Kidney Pills are no faith cure. You don't have to believe in them to find in them the relief you are looking for. But if you ask your neighbors they will tell you of their own experiences of the work Dodd's Kidney Pills have done."

Mrs. Thrift.—Remember that there must be no extravagance while I am away.

Servant.—Yes'm.

Mrs. Thrift.—And be sure to take off Bobby's hat when he's not looking at anything.

Nearly all children are subject to worms, and many are born with them. Spare them suffering by using Mother Graves' Worm Exterminator, the best remedy of the kind that can be had.

Lamps wicks which will last a year are made of asbestos boiled in wax.

It is easier to dodge responsibility than it is to dodge the result.

Manitoba Testing Wireless Telephone

Probable That Government Will Assume Control Over This Communication

Experiments conducted at the request of the Manitoba government with wireless telephone apparatus between Winnipeg and Fort La Prairie, 80 miles away, have been successfully concluded and a second step in the experiments is about to be taken, when conversations will be attempted between Winnipeg and Fort William, a distance of nearly 400 miles. The experiments are being taken with a view to testing out a proposed system of wireless to be installed in northern Manitoba.

Mining districts and fur marketing centers are far scattered and sparsely settled. Land wires are costly to install and to maintain owing to falling trees in the bush country. It is proposed to establish some dozen stations at central points in as many districts of the northland, and these will in turn be given communication with the outside by a station of larger power at The Pas, which will work with another similar station at Swan River, 250 miles south of the former place, and in the well settled portion of the province.

Should wireless telephony prove successful it is probable that the Manitoba government will assume control over this form of communication, just as it has the telephones, and that the wireless will be incorporated in the government telephones system. In this way the government may be able to give service to many isolated points, notably in mining sections east of Lake Winnipeg which cannot now be reached by land wires.

Minard's Liniment Relieves Distemper.

For Farm Relief

Premier Martin Tells of Work Done in Saskatchewan

The government of Saskatchewan spent \$3,000,000 during the past winter on relief work in the Southern and Western portions of the province, where there were almost total crop failures last year. This statement was made by Premier W. M. Martin, speaking at the banquet of the Saskatchewan Retail Merchants' Association at Moose Jaw.

The Premier stated that there was every cause for optimism as far as crop prospects this year. He had visited every part of the area that had a poor crop a year ago, during the past month, and everywhere he went he found that people were very hopeful as to the outlook. "If, however, we should not get a good crop, I do not know what will be the outcome," said the Premier, adding that that was all that was needed to put business where it should be and to place the farmers on their feet.

In the course of an outline of the resources of the province, the Premier stated that he thought that Northern Saskatchewan in the days to come would produce greater wealth than the Southern parts, where development has hitherto been confined. That was because the north, with its greater amount of shelter and water, was more adapted for mixed farming.

Credit for Manitoba Farmers

Total Loans to Date Amount to \$840,000 on Short Terms

Eight new rural credit societies operating under provincial laws, providing machinery by which the farmers may co-operate for the purpose of securing money at a comparatively low rate of interest for purposes of making improvements on their farms, is the record for June so far. This brings into operations in Manitoba 66 of these societies, and of this number 53 are actually loaning money. The total loans to date under the Rural Credits act amount to \$840,000 on short terms. Membership in the societies is limited to 100, but in several instances this number has been exceeded and in the Duck Mountain district and at Swan River additional societies had to be formed. They provide loans to farmers at rates lower, than those obtainable at the chartered banks.

"I don't see why you stick to Dr. Torpor's church," chattered Mrs. Filippa. "He's such a poky old preacher."

"He's just that," agreed her friend, Mrs. Fortysome, "but then, you know, the light from that rose window shines right over my nose and makes me look not more than 20 years old."

The number of marriages in Great Britain every year is about 333,500.

Manitoba Gardens Well Advanced

Garden at Brandon Shows Evidence of the Favorable Season

Although it is only a few weeks since plants could be put out in the open, Mr. Edward Crawford, of Brandon, Manitoba, has tomato plants in his garden that have topped on them as big as marbles. Everything was grown from seed, the tomato plants were started in the house about March 10th, and transplanted to a hot bed April 1st, and later put in the garden. Potatoes have been in flower in this garden for a week or more and cucumbers, which are always grown in the hot bed, are also in blossom. Mr. Crawford is using his second crop of radishes, spinach, lettuce and onions and has celery, corn, squash, artichokes and many other vegetables well advanced.

A silent, keyless clock, which contains four wheels and no springs is a late invention.

A Wonderful Discovery Cures Catarrh Permanently

Formerly doctors prescribed stomachic food, naps and Bruchitis. They seldom cured and catarrh has become a national disease. Today the advanced physician fights Catarrh by medicated air. He fills the lungs, nose and throat with the antiseptic vapor of Catarrhoxone. It is easy then for Catarrhoxone to cure. It contains the essences of pure pine balsam, reaches all the germs and destroys the disease. Every case of Catarrh, Bronchitis and Sore Throat can be cured by Catarrhoxone. The dollar outfit lasts two months and is guaranteed to cure; small size 50c; trial size 25c, all dealers or Catarrhoxone Co., Kingston, Ont.

Ought to Have Own Navy

Hero of Kut So Advises Canada in Address

"If you had started twenty years ago you would have had a respectable navy today." These were the significant words of Major-General Sir Charles Townshend, the hero of Kut, in a short address before delegates to the Dominion Council of the Navy League. He further expressed his opinion that the time has arrived when Canada should have her own fleet of ships as an instrument of self-protection and an aid to the Empire in time of war.

It was an expedient, he declared, that the Dominion of Canada should maintain her own navy. "The whole crux of the situation in Canada today is that she should create a fleet of her own," he said.

It is far easier to coax a poor performer to tackle a piano than it is to chase him away from it.

HEALTHY CHILDREN ARE HAPPY CHILDREN

The well child is always a happy child—it is a baby's nature to be happy and contented. Mothers, if your little ones are cross and peevish and cry a great deal they are not well—they are in need of medicine—something that will set their bowels and stomach in order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach, and thus drive out constipation, colic, indigestion; break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Havel, Pierreville, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

It is claimed that one of the new emergency brakes for automobiles can be applied with the pressure of a finger.

The summer girl can't appear on the stage of action any too soon.

Asthma Victims. The man or woman subject to asthma is indeed a victim. What can be more terrifying than to suddenly be seized with paroxysms of choking which seem to fairly threaten the existence of life itself. In order, for nine-tenths of all childhood ailments arise from a disordered state of the bowels and stomach. Such a medicine is Baby's Own Tablets. They are a mild but thorough laxative which regulate the bowels, sweeten the stomach, and thus drive out constipation, colic, indigestion; break up colds and simple fevers and make the baby healthy and happy. Concerning them, Mrs. Albert Havel, Pierreville, Que., writes: "Baby's Own Tablets are the best medicine I know of for little ones. They relieved my little girl from constipation when nothing else would and I can strongly recommend them to other mothers." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

Many a man who has his price gives himself away.

W. N. U. 122

HAVE YOU ASTHMA?

Do you endure the misery of night after night of difficult breathing? Do you wake up in the morning with your chest tight and your head aching? Do you feel as if you were suffocated? Do you feel as if you were dying? Do you feel as if you were in a cage? Do you feel as if you were in a tomb? Do you feel as if you were in a prison? Do you feel as if you were in a hell? Do you feel as if you were in a purgatory? Do you feel as if you were in a paradise? Do you feel as if you were in a heaven? Do you feel as if you were in a hell? Do you feel as if you were in a purgatory? Do you feel as if you were in a paradise? Do you feel as if you were in a heaven?

TEMPLETON'S RAZ-NAH

This preparation is the result of years of experiment and has been found to be the most effective remedy for Asthma, Cough, Bronchitis, and all other respiratory diseases. It is sold by all druggists and is guaranteed to cure.

Write for free sample to Templeton, 140 King St. W., Toronto.

Sold by reliable druggists everywhere for \$1.04 a box.

TEMPLETON'S RHEUMATIC CAPSULES

For fifteen years the standard remedy for Rheumatism, Neuritis, Gout, Sciatica, Lumbago, Neuralgia. Many doctors prescribe them.

Write to Templeton, 140 King St. W., Toronto, for free sample and full particulars.

Sold by reliable druggists everywhere for \$1.04 a box.

Visit Experimental Farms

Extensions to Experimental Farms in Saskatchewan Are Planned

A series of excursions to the experimental farms at Scott, Indian Head and Rosthern, the forestry station at Indian Head, and the college of agriculture at Saskatoon, is being arranged by the provincial superintendents of the various farms. The purpose of these excursions is to enable the people of the province to familiarize themselves with the extent to which these farms contribute to the agricultural development of the province.

The experimental farm at Scott will keep "open house" for all comers, as follows: July 6, for residents in the territory north of Township 39 and west of range 20; July 7, for residents in the territory south of township 40 and east of range 21. The farm at Indian Head and the forestry station will open their doors on July 15 to residents north of the Qu'Appelle Valley and west of range 12; and the farm at Rosthern will be at home to visitors on July 19, 20 and 21. The date for the excursions to the agricultural college in Saskatoon has not been fixed yet.

Repatriate War Prisoners

Dr. F. Nansen, the Norwegian statesman and arctic explorer who is representing the allies in the repatriation of prisoners from Russia and Siberia, has reached an agreement with the international Red Cross and will leave for Russia by way of Berlin with a committee of Red Cross workers. Dr. Nansen will attempt to repatriate thousands of prisoners, including some Americans, because of the severity of the Siberian winter sets in.

If it was not for their famous wires many men would never be heard of.

There is only one Aspirin.

Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Monachium. It is well known that Aspirin means Bayer and that the Bayer Cross is the mark of the Bayer Manufacture of Monachium. It is well known that Aspirin means Bayer and that the Bayer Cross is the mark of the Bayer Manufacture of Monachium.

Food For A July Morning

—and every morning when the thought of health enters into the meal time preparation—

Grape-Nuts

This easily digested food needs no sugar, yet it has a most pleasing sweet flavor, and is full of the sound goodness of wheat and malted barley.

"There's a Reason"

Wheat Control Again Debated In the House

Ottawa.—In the House, Sir George Foster, referring to the participation certificates issued by the wheat board, said these were now worth at least 40 cents per bushel, despite the fact that some people had been stamped into giving them away. Some would be redeemed he thought within the next month, all before the close of the present year. Sir George said the board was made up of practical men to whom he had never dictated as to how they should carry on business.

Mr. King suggested that it would not be wise to make sure that legal execution might not be taken by the powers of the wheat board and the board of commerce.

H. H. Stevens, of Vancouver, entered an emphatic protest against any confirmation of "the principle of past smallness" displayed in the resolution. If this was merely an enabling bill an amendment to the Canada Grain act would have served the purpose.

In all but Canada and neutral countries, said Mr. Stevens, wheat control had been almost abolished. He did not think the board was necessary to control the market of centralized European buying.

Mr. Stevens went on to complain that absolute control of business worth \$500,000,000 was placed in the hands of three men. There had arranged to make a success of it, selling always on a rising market. There was no assurance that the market would not fall in the future.

He had no objection to farmers getting all they could for their wheat, but he failed to see why the government should protect them from all risk. The government owed as much consideration to the consumers of the country as it did to the farmers.

Dr. R. J. Manion, Fort William, said that naturally his constituency was opposed to wheat control, but personally he had been of the opinion that the elimination of control would be a good thing. However, on assurance that the measure was merely an enabling one, he was willing to support it.

O. R. Goat, of Assiniboia, criticized the operation of the wheat board in a number of respects. He said that prices obtained by the board were lower than farmers of the west could obtain across the line in the United States. The difference between the price obtained by the wheat board and the amount the farmers were ultimately to receive for their wheat was still being held up, and the farmers were thereby deprived of the use of millions of dollars.

The resolution was adopted and given first reading.

Retaliation of Hungary

Hungary Has Begun an Energetic Counter-Boycott Against Austria

Vienna.—In retaliation for the international transport boycott against Hungary, started on Monday, Hungary has begun an energetic counter-boycott against Austria, whose workmen are taking an aggressive part in the action instituted by the international organization in protest against the alleged Hungarian persecution of working elements.

Freight and passenger service on the railways and communication by river have been cut off by Hungary. Food barges on the way up the Danube from countries to the East were stopped in Hungarian waters.

In pursuance of international boycott traffic in the direction of Hungary remains totally suspended. Trains from Vienna for Hungary are being held up although they were loaded with passengers ready for the trip. It is reported that Hungary has proposed that leaders of the boycott meet in Vienna to discuss the calling off of the international boycott.

Increase in Savings Deposits

Ottawa.—Savings deposits in Canadian banks increased during May by about \$20,000,000; within the last 12 months they have increased by over \$120,000,000. Demand deposits during the month were lower than in April. Current loans in Canada were slightly higher; call loans in Canada show a decrease.

Mexican Strike

Mexico City.—All mechanics in the railway shops of Tampico have struck demanding higher wages, according to a despatch from Excelsior.

Appointment of Prince Arthur

Controversy Postponed Regarding Matter of the Governor-Generalship

London.—The Daily Chronicle remarks on the appointment of Prince Arthur of Connaught as the governor of South Africa, that it postpones for a moment the controversy in which many Dominion statesmen, including the present South African premier, are involved as to whether the appointment of an Englishman as governor-general is consistent with the claim of equal partnership.

"This point might sound rather theoretic in view of the great practical services rendered, for example, in South Africa by such governors as Lord Selborne and Buxton, but there is no doubt that it is strongly felt and seriously urged," says the Chronicle. The Chronicle adds that the Duke of Connaught was the most popular governor Canada ever had. The prince, therefore, will sail for South Africa with this fine example in front of him.

ULSTER RIOTS MAY SPREAD OVER IRELAND

Believe That Londonderry Trouble May Have Far-Reaching Effect

London.—Writing of the Londonderry riots, the Belfast correspondent of the London "Times" writes: "The gravest aspect of the present position is that Londonderry may speedily become a mere incident in a much larger setting. For three days rumors have stated that Sinn Feiners from the northwest were concentrating for an attack on the city—and it is not improbable.

"For the first time very large bodies of lawless elements in that city possess deadly weapons, and plenty of ammunition; for the first time the whole city is involved, and not merely a restricted area where the factions live; for the first time the principal victims have been inoffensive people, who have been shot down, not for political or sectarian reasons, but in wantonness. The lawless element over a wide area is being drawn into the conflict, while those who have hitherto held aloof from battles are gradually but surely coming to the conclusion that they must take up weapons.

"The proceedings at Derry possess every element of civil war without any interference worthy of the name from the forces which the government is opposed to controlling.

"The descent of Sinn Feiners en masse from the countryside, assisted or preceded by a large movement in Ulster, either of which seems possible at any time, will immediately precipitate matters, and in a way that the military forces may be engulfed.

"Unionists are said to be pouring into the city bent on vengeance, but there is also an exodus of people from the city by road and train. It is reported that artillery has arrived."

Would Recognize Soviet

English Labor Party Adopt Resolution Demanding Recognition Of Russia

Scarborough, Eng.—The twentieth annual conference of the Labor party has adopted a resolution demanding recognition of the soviet government of Russia.

An amendment proposed by Ernest Bevin, of the Dock Workers' Union, favored the creation of a labor commission for an investigation of conditions in the country.

The resolution and the amendment were adopted after the conference had been addressed by Lieut.-Colonel L'Estrange Malone, member of parliament for Leyton, and Mr. Bevin.

Germany's War Losses

Geneva.—Recent statistics published in Germany on that country's war losses, state that 1,350,000 men were killed. There are today 520,000 war widows, according to statistics; 1,150,000 war orphans and 500,000 maimed or consumptives supported mostly by charity.

W. N. U. 1322

Russian Refugees Would Come to Canada

Wish to Come Here and Form A Community

London.—Many men and women refugees from Petrograd, mostly husbands and wives, are just now lodged in a London poor law institution and are desirous of going together to Canada to form a community.

The foreign office has approached the Canadian authorities intimating that if the Dominion is willing to accept them, the Imperial authorities will assist them towards becoming established. They are British subjects, it is said, bearing such names as Miller, Johnson and Smith, but do not speak English.

It is reported that the Canadian government hesitates to accept them because of their desire to form a community among themselves.

Trade With Russia

Stated That Soviet Ambassador Has Somewhat Overdrawn Facilities

Ottawa.—From what can be gathered here, Ludwig Martens, ambassador from Soviet Russia, to the United States, has somewhat overdrawn the importance of the "facilities" extended to Novorussia of the American Soviet in going to England. It is believed a denial will be forthcoming of the statement that Novorussia went to England with the aid of Canadian authorities who courteously arranged facilities.

So far as negotiations regarding the re-establishment of trade with Soviet Russia are concerned, the Canadian government has little to say. There is no embargo on trade exchange between Canada and Russia. Shipments may pass freely so far as the Canadian government is concerned, and the usual customs regulations are applicable. There is no objection to the purchase by Soviet Russia of merchandise in Canada, but on the other hand the Canadian government will make no guarantee as to contracts or delivery or transportation.

Coal Shortage in Montreal

Montreal.—The coal situation in the vicinity of Montreal is becoming serious, and it is highly probable that before long many plants will be compelled to close down on account of this shortage.

News of the Provinces

SASKATCHEWAN

Anti-Grasshopper Campaign

J. F. Booth, chief director of the anti-grasshopper campaign reports that outbreaks have occurred in several districts in Saskatchewan, but the protective measures of poison dope has worked wonders among the pest. Mr. Booth advised that the poisoned dope should be spread as thinly as possible because it takes but very little of it to kill the hoppers.

Importing Dairy Cows

A. J. Clark, of the Saskatchewan livestock branch, Department of Agriculture, is in the east now buying dairy cows which will be sold to Saskatchewan farmers at cost price. The livestock branch will spend \$10,000 on dairy cows, which will be brought here to form the nucleus of several new dairy herds.

Annual Farm Boys' Camp

Forty-one districts have already entered teams of five boys to take part in the annual farm boys' camp at the Regina exhibition. The boys will be given practical demonstrations in past years, and later on will attend the camp at Saskatoon in connection with the annual summer fair at the university.

ALBERTA

Protect Wild Birds

Seven bird sanctuaries have been established in Alberta. They are in the neighborhood of Many Islands Lake, Birch Lake, Padwick Lake, Buffalo Lake, Miquelon Lake, Minik Lake, and La Biche. The kingbird, the chief breeding areas of wild birds.

Greater Dividends

Greater dividends in Southern Alberta will be paid by the investment of \$20,000,000 in irrigation projects than any other investment, so C. A. Magrath, chairman of the Canadian section of the International Waterways Commission, declared in a statement.

Too Much Curriculum

Throughout Alberta there is a general feeling not only among educationists, but among business men that the formal term end examinations in the schools should be abandoned as too great a tax on the mental and nervous systems of the pupils, and the Edmonton Board of Trade has even gone so far as to adopt a resolution declaring that these examinations are not a good influence, and that there is too much curriculum in the public schools of the city.

MANITOBA

Auction Sale of Pure Bred Cattle

Brandon.—There will be two important auction sales of pure bred cattle at the Provincial Summer Fair, at Brandon, this year. Both will be held on the same day, namely, July 23.

Sabbath Breaking Complaint

Many complaints of Sabbath breaking throughout the country have been received by Commissioner J. G. Raty, of the Manitoba provincial police. It is stated that in many districts stores are remaining open on Sunday and farmers are working. Steps will be immediately taken to put a stop to these practices, the commissioner announced.

Wheat Headed Out

Brandon.—Severely cases of wheat in the head may be seen on the farm of H. L. Palmer, south of Brandon. The stalks are about 21 inches long and there is promise of a heavy yield, as the plants are well stooled out. The wheat is of the Kobayashi variety, and was sown on April 20.

BRITISH COLUMBIA

Record Bag of Big Game

J. W. French, big game hunter from Eastern Canada, reached Kamloops recently with a record bag comprising nine grizzlies and three black bears, after a six weeks' hunt north of Revelstoke and Shuswap.

Abolish Daylight Saving

Victoria, B. C.—After a two-day trial of daylight saving the city council has decided to revert to standard time.

Dispute Is Referred To League of Nations

Sweden and Finland Should Arbitrate Aland Isles Issue

London.—The Times announces it has reason to believe that representations have been addressed to the Swedish and Finnish governments on behalf of the allied and associated powers to the effect that Sweden and Finland should refer the question of sovereignty of the Aland Islands to the League of Nations.

Sweden desires a plebiscite in the Aland Islands, which are situated in the Baltic between Finland and Sweden, claiming the majority of the population is of Swedish origin. Finland, however, is holding out against separation of the archipelago from Finland on the ground that they are more nearly connected with the Finnish mainland, and are definitely divided from Sweden.

Big Gas Strike

Heavy Flow Reported From New Discovery on Peace River

Edmonton.—Twenty million cubic feet of gas every twenty-four hours from the San Joaquin well on the Peace River is the news that H. L. Williams, bringing down from the north. The flow was struck while Mr. Williams was at the well, and since his return telegraphic advice have been to the effect that it is still keeping up, with undiminished force and volume. It is now being capped and the drilling operations will then be continued in a further search for oil.

The San Joaquin well is about 12 miles down from Peace River town and the present strike is by all odds the most promising development that has yet occurred there. Tests of the wet gas are being made with a view to ascertaining the feasibility of extracting gasoline from it by either the absorption or compression methods.

Period of Inflation Ended

London.—The Times financial editor, in reviewing the Canadian banking expansion, says that it is clear conditions in Canada have much in common with those on this side. The period of inflation has ended and it would be unwise to anticipate a continuance of rate expansion recorded in the past few years.

Turks Menacing Allied Forces

Allied Position in the Dardanelles Is Seriously Threatened

Boulogne.—The commander of the British naval forces at Constantinople has notified Lord George that the allied position in the Dardanelles is seriously threatened by Mustafa Kemal's Nationalist troops, who number 40,000. These forces now occupy almost all of Anatolia and are reported to be preparing to launch a strong attack upon the allied military and naval forces. Several skirmishes have already resulted between the British and Turks. The latter have advanced to the Ismid district burning and pillaging the villages as they progressed.

Wireless Strike Called Off

London.—The strike of wireless operators which threatened to bring shipping activities to a virtual standstill, has been called off. This action was taken as a consequence of meetings of the association of Wireless Telegraphists recently held at London, Liverpool and other parts. The wireless leaders declare they have secured guarantees of fair treatment.

German Food Riots

Berne.—Seventeen persons have been killed in Ulm, Germany, and five at Ravensburg, and numerous persons were wounded in both towns during famine riots which developed into pitched battles, according to despatches received here from the German frontier.

Failure of Belphever

London.—A Reuters despatch from Stockholm quotes Mrs. Philip Snowden and Dr. Guest, members of the British Labor Delegation which went to investigate conditions in Russia, and who have arrived in Stockholm on their return journey, as declaring that in their view soviet Russia could teach western Europe socialism. Socialism, they predicted, would prevail in Great Britain long before it would in Russia, the message adds.

Parcel Post Helps to Lower Cost of Living

On Committee on the Amendments to the Postal Act, Senator Proudfoot, urged that the parcel post rates be increased, but the newspaper postal rates remain as they are. He claimed the parcel postal service was costing the country millions and was helping the mail order houses at the expense of the country merchant. It was also demoralizing the mail service and was drawing the wealth of the country to the large cities. The proposed measures would save newspapers for the benefit of the mail order houses. Parcel post rates should at least equal express rates.

Hon. Pierre Blondin, replied that the parcel post system more than paid its way and the newspaper postage rate caused a loss of over five million dollars annually. The parcel post system had been introduced to reduce the cost of living. To protect local merchants the zone system was established. The immense deficit in the post office department was due to the rural mail routes. They were now being conducted at a large loss and no new routes were being organized. This loss was due to the immense increase in the cost of rural mail carriers' wages which were three and four times what they formerly had been.

SITUATION IN NEAR EAST IS NOW SERIOUS

War Office May Appeal For Reservists to Strengthen the Army Reserve

London.—The war office intends almost immediately to appeal for reservists, according to the Daily Mail. The newspapers say it probably will ask for discharged soldiers and men who served for at least one year during the war, and have not since joined the Territorial to enlist in the army reserve.

Will Not Increase Indemnities

Proposal to Raise Amount to \$4,000 Per Session Has Failed

Ottawa.—The proposal to increase the indemnities to members of the house of commons from \$2,500 to \$4,000 per session failed to receive the support of the government in the house of commons after nearly a score of members of all parties had expressed themselves in favor of it. The speech of the prime minister, in which he admitted that many members were representing constituencies at a financial sacrifice and intimated that the government was not prepared to take any action for increased indemnities, was not received favorably by the house.

Handed Disarmament Note

Germany Will Be Told How to Avoid Further Occupation

Paris.—The note to Germany regarding disarmament prepared by the council of ambassadors and approved by the allied premiers at the Boulogne conference was handed to the German peace delegation here.

Further Occupation

The communication probably will be followed by another note going further into details and telling Germany exactly what she must do to avoid further military occupation of German territory.

Failure of Belphever

London.—A Reuters despatch from Stockholm quotes Mrs. Philip Snowden and Dr. Guest, members of the British Labor Delegation which went to investigate conditions in Russia, and who have arrived in Stockholm on their return journey, as declaring that in their view soviet Russia could teach western Europe socialism. Socialism, they predicted, would prevail in Great Britain long before it would in Russia, the message adds.

Prohibition Referendum Campaign Goes Ahead

The Prohibition Referendum Campaign Committee, with its headquarters in Edmonton, has been successfully developing its plans for the next few weeks with a view to securing as large a majority as possible in favor of the proposal to prohibit the importation of intoxicating liquors into the province, as being necessary for the health of the people. It was fully expected that the date for this vote would be a very early one, but as the vote is to be taken on July 15, before the new franchise bill which is now before the Federal Parliament, and as the passing of this bill has been delayed very much beyond what was expected, the date has not yet been definitely announced, and when it is, it will probably be later than expected.

The task of organizing the Province, and getting the vote clearly before its more than 250,000 electors, is, however, proving a big task, big enough to tax the resources of the provincial committee, and although they have favored an earlier date, and that they will need by the time that will be given them, by the extension to thoroughly organize the province and secure the finances necessary to carry it through. Mr. H. H. Hill, the provincial organizer, together with the official staff at headquarters, is busy pushing this work with all possible vigor, and already there are some fourteen or fifteen district organizers, covering over half the provincial constituencies, actively promoting the work of setting up local committees to carry on the campaign. In some cases indifference and animosity to the movement are being met, but in many others there is a strong determination to carry the campaign through to a successful issue.

Organizers are frequently encountering confusion in the public mind as to just what is the issue in the referendum. They have therefore been endeavoring to make clear that the only issue is whether the electors are to be asked for an expression of their will in the question of the importation of liquor for beverage purposes. The exact form of the ballot has not yet been announced, but it is likely to be: "Are you in favor of forbidding the importation, or bringing of intoxicating liquor into the province for beverage purposes?" Added to this is the fact that Premier Stewart has stated that if the vote in this referendum, is overwhelmingly against the continued importation, his government will accept that vote as a mandate to follow the federal proclamation forbidding importation, with the necessary provincial legislation to further restrict the use of liquor. In view of the fact that there is considerable misunderstanding as to what these measures are likely to be, the Premier has intimated to the press that it is his intention to issue a statement in the very near future, in which he will clear away any doubt as to what he plans to do.

Water Ink to Save Paper

Another illusion was shattered at the Royal Society of Arts, John street, Adelphi, W. C.

Between 30 and 40 members of the institute of inventors met to discuss "the relations of the inventor to the state," and none of them came in Rolle Royce or in rage. It was an assembly of apparently ordinary, normal beings.

The inventors present at what was a rather technical discussion about patents looked perfectly prosperous. They had the appearance of plenty without profiting.

This rather conflicted with the statement made by one of them to a Daily Mail reporter that "inventors want credit for their work more than cash."

They did not talk much about their inventions, but one of them said that newspapers should be printed on sheets which could be wiped clean and returned to the presses after a day's use.

"I could be done, if water-ink were used instead of oil-ink," he affirmed.—Daily Mail, London.

Mrs. D. M. J. Conway left on Wednesday, via New York, to sail on the Olympic. She is to spend some months with her parents at Coolishda House, Ballymacode, Cork, Ireland. Later she will visit Madame Bonnamy, her sister-in-law, at Quentonville. From there she will proceed to the continent, visiting Paris, Brussels and Madrid. At Madrid she is to be the guest of the Marchioness de Valeraz. We wish Mrs. Conway bon voyage.

The Everlasting Optimist in Alberta

It was the middle of May and the country land which I was traveling to, central Alberta, was full of April reminders—mud and holes, sloughs brimming full of water, patches of snow lingering in the shelter of the poplar groves, rickety cracking across the roads and deep ruts everywhere.

"It's a late spring," I thought, as I saw the first dim shade of green to an open pasture to the right. "A full month late." I continued, as I put my foot on the low gear pedal to pull through a forbidding mud hole.

Suddenly, after whirling through this popular-bordered lane for a mile, I emerged into an open landscape; fields filled with young grass, green, made more possible, no snow in sight, the tang of plowed fields filling the air.

I was full almost of a busy farm house.

Within a dozen feet of the road, the mother stood in the middle of the garden, her head, her arms tucked, bare, hunched; the wind slightly blowing her mass of silver grey hair.

"It's awfully late," I said, after we had passed a few words of greeting. "O, it's a little late, by the calendar," she said. "But I never saw a better prospect." She continued: "The sun is warm, the soil is moist and warm and every seed will come right up and never stop growing night or day until harvest," she said. "I just feel that soil," she continued, picking up a handful of the richest, richest, blackest loam in the world. "Why is just like velvet in your hand. I will have peas by the middle of July. We always seed too early in good seasons. The seed usually lies in the ground a month before it starts to grow, because the ground is cold. This spring every blessed seed will come up in a week and never stop growing. I think it's just right. I am planting more garden than ever before and by the first of June the boys will have our whole 320 acres seeded and packed and we never felt better about a crop prospect."

She brushed a wispy hair out of her face and shaded her eyes with her hand as she looked at me. I could see deep down into those clear eyes. They seemed to be fatigued deep. And in their depths was an undiminished and everlasting something which we call Hope.

She was strong and muscular and yet infinitely feminine. Her sleeves were rolled up to the elbows and her arms were slightly brown from sun and wind. Her face was weathered, broader, and slightly strong. Her body was straight, upright, vigorous. And as she stood there looking at me with those deep, hopeful eyes, I realized in a flash of understanding how these western lands have been colonized and conquered and shipped into thirty communities in a decade, so to speak. That strong, virile, hopeful woman standing there in her garden, with bare head and sleeves rolled up, had shattered all the pessimism that I had gathered from bank manager reports of late springs, unfavorable seedling season and gloomy outlook for a crop.

In a field just south of the house four men were plowing, having seedling and picking the land, and the perfume of the new land was wafted to my nostrils. "By the first of June we will have the entire half section seeded and in good shape," she said, as I spoke of the boys at work. "The first one we seeded last week are now up," she continued, and opposite where I stood in the field, I saw the straggling green shoots reaching down across the field, as my eyes followed the drill marks across the half section.

Just over the fence from the garden a half dozen milk cows were lying on a green knoll, their faces lifted to the soft west wind, their eyes lazily closed, and all contentedly chewing their cud.

In the backside of the pasture two younger children were playing a busy time in trying to drive a dozen ewes and frisking lambs into an adjoining field.

"My husband, yes, he's at home. He's down in the other field where he has seven cows and 40 pigs, to look over. We never see him from breakfast until dinner and from dinner until supper, he's so busy. He expects to market about half the young ones in December, and we hope the prices start up."

She took a handful of seeds of her apron pocket and started dropping them down a moist, well-shaded trench; as I and good-bye and started away.

It was Mother Alberta, the Everlasting Optimist, before the late spring!

Bert Hoffman in Calgary Herald.

The photographer's clerk was very preoccupied in showing some samples of work to prospective stalkers when Patrick Maloney stalked into the studio and intimated that he would like to know what the pictures were worth.

"Like that, five shillings a dozen," said the girl, handing him one.

Pat gazed long and earnestly at the photograph of a very small baby sitting in a wash basin.

"Shure, now," Pat shyly asked, "phwat would it cost wid me clothes on?"

6 per cent. Interest

GOLD BONDS

The Province of Alberta Offers

To those desiring a safe investment at a high rate of interest, a new Bond issue, paying 6 per cent interest.

These are ten-year Gold Bonds dated May 1st, 1920, and maturing May 1st, 1930, with interest coupons payable May 1st and November 1st.

Bonds are in denominations of \$100, \$500 and \$1,000.

The General Revenue and all the assets of the Province are behind this investment.

Investors may purchase these Bonds direct from the Department of the Provincial Treasurer, without commission of any kind or unnecessary delay in delivery.

This offering is intended chiefly for the benefit of the small investor, so that the industrious and thrifty, be he laborer, artisan, farmer, or professional man, may invest his savings by mail.

Remittances should be made by marked cheque, money order, or postal note.

These Bonds may also be obtained from any recognized Bond House in the Province of Alberta

Address all communications to DEPUTY PROVINCIAL TREASURER

HON. C. R. MITCHELL,

Provincial Treasurer.

W. V. NEWSON,

Deputy Provincial Treasurer,

Parliament Buildings, Edmonton, Alberta.

Frozen Fish

Do you know the principle of the refrigerator in your home in which you keep foods from day to day to the preservation? You have absolutely no problem, have you, against foods that are preserved for several days in it?

Well then fish when taken from the water are frozen immediately, and a glazed coating is put over them. Immediately they are put in cold storage and are preserved in the same state until required. During hot weather they are shipped to long distances in this condition, as it would be impossible to ship them the same distance in a fresh state. Analysis shows that the fish taken to the kitchen in a frozen state contains 100% of the food value it had when taken from the water, and an experiment on your part will prove that it contains 100% of the delicious flavor.

Lady motorists are now to take the following very solemn obligation before starting in to start around with hubby or lover, and Capt. Beebe and other local commissioners are ready at all hours of the twenty-four to hear this solemn oath of allegiance:

(1) With uplifted right hand I do most solemnly promise and declare that I will never be guilty of bothering my husband at the wheel with unnecessary talking.

(2) Particular in thick traffic will be kind and considerate and indulge in no nagging nor discourteous remarks.

(3) Nor will I push the floor boards through in a sympathetic attempt to apply the foot brakes.

(4) Should I be guilty of violating this solemn oath and obligation let my beaver motor coat be given to the cook.

(5) So help me Twin Six, and keep me true.

Report of Blairmore School for June

And Passes for the Term

PRIMARY GRADE—Teaching days 21, aggregate days' attendance 925.5, average 44.07, percentage 89.35. Perfect in attendance—Joseph Pineda, George Fire, Kenny Gibson, George Brown, Jules Verquin, Bruce Rinaldi, Andrew Chalm, Mike Kolske, Jack McPhail, Charles Harner, Joe Leskoski, Jack Sloum, Rinaldo Rinaldi, Mary Aschacher, Lily Mariele, Victoria Peron, Maggie Patterson, Anzietta Aschacher.

GRADE I.—Teaching days 21, enrollment 41, aggregate days' attendance 831, average 39.57, percentage 96.11.

GRADE II.—Teaching days for term 117, aggregate days' attendance 2842.5, average attendance 24.29, percentage of attendance 99.27.

GRADE III.—Enrollment 43, aggregate days' attendance 871, average attendance 41.47, percentage 96.44. Perfect in attendance—Inez Sartorius, Katie Kuth, Ruby Howe, Josephine Piro, Charles Joyce, Edith Hayes, Irene Chappey, Elizabeth McAndrew, Duncan Hamilton, Arietta Link, Bertha Piro, Percy Thibadeau, Roland Mauck, James Lloyd, Margaret Wolstenholme, Martha Jarvis, Severina Lissa, Evelyn Druart, Olga Belesky, Julia Accurt.

GRADE IV.—Teaching days 21, enrollment for month 45, average attendance 41.80, percentage 92.88. Passed successfully from Grade IV to Grade V—Fanny Fabb, Isabel Ray, Billy Robbins, Julia Amato, Percy Anderson, Julia Dutil, Alice Smith, Irene Kalfour, Annie Ubrin, Angelina Piccarillo, Billy Hamilton, Elsie Sebbelga, Laura Lord, Norma Joyce.

GRADE V.—Teaching days 21, enrollment 36, aggregate days' attendance 700, average attendance 33.33, percentage 95.22.

GRADE VI.—Enrollment 18, aggregate attendance 364, average 17.3, percentage 86.29. Perfect in attendance—Anne Anderson, Maurice Bond, Irene Boushiller, Lydia Brunette, Edith Christopher, Lillian Evans, Louise Graham, Gwen McDonald, Elizabeth McLeod, Edward Thibadeau, Florence Warner.

HIGH SCHOOL.—Teaching days school open 18, enrollment 21, aggregate days' attendance 358, average attendance 19.38, percentage 92.28.

Promoted from Grade IX to Grade X—Kathleen Tompkins, Grace X—Kathleen Tompkins, Lucy Hinds, Gladys Wood, Margaret Pearson, Esther Pearson, Helen Pearson, Henrietta Robins, Marion Ennis, Alice Carter.

"He is a liar."

Cowley Happenings

P. Fortier motored to Lethbridge on Friday to visit his daughter Ora.

Mrs. Olin and Edna Bird have returned from their Montana trip.

Several of the Cowleyites took in the Lundbreck picnic on Saturday.

John Carney has recently sold his farm here to a party of French people.

Cowley's baseball team defeated Pincher Creek on Thursday to the tune of eight to six.

We will be able to cut the high cost of living now. The early vegetables are big enough to eat.

Several music students went from here on Friday to take the music examinations at Pincher Creek.

A number of local Masons went to Pincher Creek to attend the installation of officers on Thursday evening.

Emile and Cora Fortier have returned home from a Calgary convent school, where they have been pupils.

J. M. Easterbrook is on the sick list, we regret to say. He is under a doctor's care and will be confined to his bed for a few weeks.

The ball game between Cowley and Lundbreck at the latter place on Saturday was a lively one. Lundbreck took the lead eight to four.

School closes this week. Examinations ended on Friday in the senior room. There will be three days' oral examinations in the junior room.

The last monthly meeting of the Women's Institute was held on Friday, instead of Saturday, on account of the picnic being held at Lundbreck on the Saturday.

While running in the young ladies' pony race at the Lundbreck picnic, Miss Doris Elton had the misfortune to be thrown from her horse, receiving a severe fracture at the base of the skull. Three doctors were consulted immediately the accident happened. She was

Watkins Spark Plugs "Take"

Just a few principal points to SHOW YOU:

It's a REAL plug—not a "5 and 10" affair. It's for SERVICE, not to look at. Its drum is of STEEL—not cast iron, so it does not expand and blow the porcelain into smithereens.

It has SUB-PLATINUM POINTS that will outlast and give a better and hotter spark than any ordinary plug. The porcelain is of ENGLISH CLAY (Kaolin) baked to resist 2600 degrees heat—400 more than any car or gas engine generates. Sires to fit any auto, truck, tractor or gas engine. Order a set by mail, phone, or in person from

rushed to the Windsor hotel, where she remained in an unconscious condition for several hours. Although she is getting on favorably, she will not be allowed to move for at least ten days.

John D. Rockefeller visited Banff last week. He was "oil" alone.

A pretty wedding was solemnized in St. Cyril's Catholic church, Balverne, on Tuesday morning, June 29th, when Joseph Podgornik, junior, was united in marriage to Miss Anne Benishky, of Corbin, B. C. The ceremony was performed by Rev. Father Cosman, of Blairmore.

Riding Comfort Made-in-Canada

WHY let rough roads interfere with your motoring comfort?

In this Overland you need not let bad roads spoil good rides.

Triplex Springs make every mile you ride a more enjoyable mile.

Light weight makes every mile a more economical mile.

This rare combination of riding luxury with driving economy accounts for the tremendous enthusiasm which is greeting the Overland all over Canada.

Its equipment is of the most modern type. Its stamina is a credit to the Canadian institution which created this car.

Let us show you the Overland.

Put the Boys and Girls in

FLEET FOOT

WHAT you would have to pay for a single pair of children's leather shoes will buy several pairs of Fleet Foot. And Fleet Foot have many other advantages. The rubber soles prevent slipping in play and promote quietness in the house. These shoes are easy on the feet—and so carefully made of such sturdy materials that they give excellent wear, even with children who are "hard on shoes."

Put the boys and girls in Fleet Foot this summer and save money on their shoes. There are styles for men, women and children.

Fleet Foot Shoes are Dominion Rubber System Products

LOOK!—The Famous Galloway Spreader

Plan to Improve Red River

Dredging of the Red River to permit of the passage of loaded barges from Lake Winnipeg to Winnipeg and St. Boniface is to commence in July. The work is to be done under the supervision of the local harbor board, but the cost will be defrayed by the Dominion government. Included in the work to be accomplished this summer is a dock and proper approaches thereto.

\$100 Reward, \$100

Cancer is a local disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATABOLIC MEDICINE takes internally and acts through the blood on the mucous surfaces of the system. HALL'S CATABOLIC MEDICINE destroys the foundation of the disease, gives the patient strength by improving the general health and assists nature in doing its work. \$100.00 for any case of Cancer that HALL'S CATABOLIC MEDICINE fails to cure.

Druggists, 77c. Testimonials from F. J. Cheney & Co., Props., Toledo, O.

Unreasonable

"Was the operation successful?"
"It was brilliantly so in the facts it demonstrated. Only one person did not seem pleased with results."

"Who was that?"
"The patient's widow."

As a rule new neighbors do not turn out as bad as their furniture looks when it is unloaded from the moving van.

Minard's Liniment Relieves Colds, etc

Puzzled Himself

A new boot-boy at a hotel took up to one of the rooms a couple of boots, one of which was a topboot and the other an ordinary shoe.

"What do you mean," said the visitor, "by bringing me two boots of different shapes?"

"I don't know sir," came the reply.

"But what bothers me most is that there is another pair downstairs just like 'em."

Will Morning Never Come

Does this illustration picture your experience?

What is more distressing than being unable to sleep?

Sleeplessness is one of the first and most certain symptoms of exhausted nerves.

This is the warning that you need the assistance of Dr. Chase's Nerve Food to restore vigor to the nerve cells and thereby avert the development of serious nervous trouble.

By improving the quality of the blood and building up the nervous system this food core brings new energy and strength to the whole body.

Crush Military Spirit

Building of Armaments the Greatest Cause of War

"For the present, all we can do is to see that the league is used along lines which are in accordance with the United States ideals," said Lord Grey in a speech in which he reiterated his regret at America's failure to join the League of Nations.

"It is certain that the United States will in the future do its best to prevent war. Therefore, if the league is used properly, it will act as a lightning conductor in any future storm."

Lord Grey was emphatically against the building up of great armaments which, he said, were among the surest causes of war.

SHORT OF BREATH

Could Hardly Walk Without Resting.

When you go to a physician to be examined for any heart trouble, one of the first questions he asks is: "Are you short of breath?"

Now, when the heart becomes affected there ensues a feeling of a choking sensation, a shortness of breath, palpitation, throbbing, irregular beating, smothering sensation, dizziness and a weak, sinking, all-gone feeling of oppression and anxiety.

On the first sign of the heart becoming weakened or the nerves unstrung, Mr. Williams' Pink Pills are just the remedy you require. They regulate and stimulate the heart, and strengthen and restore the whole nervous system.

Mr. Stephen Crouse, East Clifford, Wis., writes: "I suffered for six years with heart trouble. I could hardly walk from the house to the barn without resting, as I used to go to short of breath. Doctors could not help me. My wife told me to get a box of Mr. Williams' Pink Pills. I took three boxes made me quite well. I am now able to do all my work on the farm, and can truthfully say I feel like a different man."

Write for a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

New National Express Trains

Service Between Vancouver and Winnipeg Greatly Improved By Fast Daily

As the first tangible evidence resulting from closer consolidation of Government controlled lines in Western Canada, the Canadian National Railways makes the gratifying announcement that, commencing on June 27th, train service between Vancouver and Winnipeg will be materially improved by the inauguration of a new through, fast, limited, daily train which will leave Winnipeg at 10:25 p.m., arriving at Saskatoon 12:10 p.m., Edmonton 11:25 p.m., and Vancouver 9 a.m., returning leave Vancouver 8 a.m., Edmonton 8:00 a.m., Saskatoon 7:10 p.m., and Winnipeg 11:00 a.m.

In line with the national ownership and the importance of these trains, operating in this service, these two trains will be known both east and westward as "The National." The equipment, in addition to the usual mail, baggage and express cars, will consist of colonist cars, first-class coaches, tourist cars, standard sleeping cars, dining cars and compartment observation cars. The passenger equipment is of the finest and every facility has been provided to furnish the highest degree of comfort to the patrons of these trains.

A very desirable feature of this service is that trains will operate over the shortest possible route, namely Grand Trunk Pacific Railways between Winnipeg and Edmonton, thence Canadian National Railways between Edmonton and Vancouver.

The necessity of establishing such a service has been demonstrated owing to the ever increasing popularity of the route that stages are made at only the more important points, for the purpose of best serving the hurried business man who desires to make a transcontinental trip in the shortest possible time and also serves the tourist and pleasure seeker. An opportunity to visit the Pacific Coast, or westerners to visit eastern business centers and resorts and return within the usual vacation time.

The desire of the management of these railways is to provide service that will appeal to all classes, and accommodation has been so provided, and in addition thereto, this service will afford patrons of these trains an opportunity to see the development in Western Canada not only from an agricultural but also from a scenic standpoint.

Connections will be made at Winnipeg to and from the East.

Favorable Crop Reports

Reports Covering the Three Prairie Provinces Are Most Hopeful

Crop conditions through the prairie provinces indicate the best condition of grain crops at corresponding periods for any year since 1904, which year's June period has held the record as ideal, only being once approached in the season of 1912. Reports covering over 200 points in Manitoba, Saskatchewan and Alberta show a much more encouraging situation than was the case in 1915, which was the worst harvest crop year. The general condition of wheat is excellent and in localities where the seeding was late the plants are healthy and vigorous. Nearly 50 percent of the reports show the crop to be a week or 10 days ahead of last year in development. The reports indicate 95 percent of the oat crop was seeded by the first week in June. A heavy seeding of barley is reported and a marked increase in flax. Most of this increased acreage is new breaking.

Under the Bolshevik Regime The All-Russian Central Executive Committee of Soviets has passed a resolution complaining that the respite, to the workers of March 5 last, ordering the return of qualified transport and railway workers to work on important, "has been exceedingly insignificant," directing all Soviet institutions immediately to supply the decrease, and warning them, "that inaction, slackness or delay in supplying the decree will be punished with all the severity of the law."—London Times.

Men do not hold women dear who cheapen themselves.

PALE AND WEAK

WIVES AND MOTHERS

Can Regain Health and Strength Through Dr. Williams' Pink Pills

Many women who have a good color in the childhood grow pale and colorless when they become wives and mothers. When the fading color in the cheeks and lips is accompanied by a loss of brightness in the eyes and an increasing heaviness in the step, the blood will be found in the state of the blood.

Many causes contribute to the condition of the blood known as anemia. Overwork in the home, a lack of outdoor exercise, insufficient rest and improper diet—these are a few of them. The important thing is to restore the blood to normal, to build it up so that the color will return to cheeks and lips, brightness to the eyes and lightness to the step. Dr. Williams' Pink Pills are the great blood purifier and blood strengthener. They begin with the very first dose, and through a fair use make new blood in the system. The appetite increases, digestion becomes more perfect, the nerves are stronger, the return. The case of Mrs. Wm. McNish, Abbott Street, Brockville, proves the value of Dr. Williams' Pink Pills in cases of this kind. "Mrs. McNish writes: 'I was quite young when I married and my husband and I became a family of four. I became a nervous wreck. I became so weak that I could not raise my head, and I was without sitting down to get my breath. I slept poorly and at times my nerves would twitch so that I could not sleep still, and I was in constant misery. I tried many medicines but they did not help me; indeed my condition was growing worse until one day a friend told me that she had been in a similar condition and had been cured by Dr. Williams' Pink Pills, so I decided to try this medicine. After the use of a few boxes I felt they were helping me. My appetite was better and I slept better. By the time I had had a dozen boxes I felt like a new woman, my health had fully returned and I could do my housework with ease. In view of what Dr. Williams' Pink Pills have done for me I cannot recommend them too highly.'

The best time to begin taking Dr. Williams' Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Williams Medicine Co., Brockville, Ont.

Hard to Tell

Helen annoyed her father with questions which he tried to answer. One evening, among other things, she demanded:

"Papa, what do you do at the store all day?"

"Oh," he answered briefly, "nothing."

Helen was silent a moment. Then she asked:

"But how do you know when you're done?"

Millions of Tree Seeds

To reforest the devastated areas in France and Belgium and to replace the British forests cut down for war purposes, the American Forestry Association has formally presented to these countries, through their consuls, 35,000,000 tree seeds.

The bags containing these seeds were piled on a boxcar common before shipping, and made a mound some eight feet high and as many feet square.

Muscular Rheumatism Subdued.

When one is a sufferer from muscular rheumatism he cannot do better than to have the region rubbed with Dr. Thomas' Electric Oil. There is no oil that so speedily shows its effect in soothing pain. Let the rubbing be brisk and continue until ease is secured. There is more virtue in a bottle of it than can be fully estimated.

Slight Misunderstanding

She (after the quarrel)—Leave my presence!
He (confused)—Why-er-you've got them all!

MOTHER!

"California Syrup of Figs" Child's Best Laxative

"Accept 'California Syrup of Figs' only—look for the name California on the package, then you are sure your child is having the best and most harmless laxative or physic for his little stomach, liver and bowels. Children love its delicious fruit taste and the mother can give it to her child on each bottle. Give it without fear. You must say 'California.'"

Under A Handicap

Great Men Who Shouled Little Ability in Early Life

That character and ability, like talent, will out in spite of handicaps, has been proved over and over again by history. For instance: Gladstone gave no evidence of unusual ability as a boy. Napoleon took forty-second in his class at the military academy; but who ever heard of the other 41? Darwin, the scientist, could never master any language; his father accused him of being interested only in dogs, shooting and rat catching, and said he would be a disgrace to the family. Henry Ward Beecher, as a boy, was "poor wretched, miserable sceller."

It is a well-known fact that a bashful reticence which people took for stolid stupidity. Grant had a dismal time as a tanner and a farmer, and found himself in distinguished military service.

Too Late

Hubby—By the way, Marie, I've been thinking over that little argument we had, and I'm beginning to agree with you.

Wifey—But you're too late. I've changed my mind.

When a mother detects from the writhings and fretting of a child that worms are troubling it, she can procure no better remedy than Miller's Worm Powders, which are guaranteed to totally expel worms from the system. They may cause vomiting, but this need cause no anxiety, because it is but a manifestation of their thorough work. No worm can exist where these Powders are used.

The Rule of Reason

"I understand you have told your wife to throw the ouija board into the wood-box."

"Yes, I'm not going to have any such superstitious nonsense deciding questions around my house. When I come to a point where I can't make up my mind what to do, I simply flip a coin."

A widow always strives to console herself with the belief that she can't do any worse the next time.

Of Local and General Interest

The population of the United States is estimated at 105,000,000.

The liquor referendum for Ontario will be held on Monday, October 25th.

Over two thousand Orangemen will celebrate in Chilliwack, B. C., on July 12th.

Mrs. J. W. McKay, of Calgary, was the guest of Mrs. L. H. Putnam this week.

Blind pigs in the Crows' Nest Pass now wear the motto: "Pity the blind."

Mr. and Mrs. W. Oliver spent Sunday last with friends in the Cowley district.

The sugar situation is intolerable. We should get together and raise Cain!

This year the American people will pay more than \$900,000,000 for automobile tires.

M. Belecky purchased a new seven-passenger McLaughlin at Pincher Creek last week.

Mr. and Mrs. C. F. Sedgwick and party were in town from Lundbreck over Sunday.

An official of the Standard Sugar Company, of Pittsburg has been sentenced to pay a fine of \$10,000 for profiteering in sugar.

James Wood left here on Monday morning's train for his fruit ranch in the Okanagan. He hopes to move his family west shortly.

F. S. Kafoury left here Wednesday morning on a two months' visit to Vancouver and California points. He was accompanied from Fernie by James Haddad, of Haddad Bros.

A western widow threw and tied a burglar. This is a new version of the widow's might.

Don't expect much from the overall movement, while silk socks cover a multitude of shins.

The United States navy department has perfected a radio compass which enables airplanes in flight to find each other without pre-arranged course or rendezvous.

"The Bible says that there will be no marriages in heaven," said Willie. "I wonder if that is true!" "Of course it is," replied his little sister Hazel. "How can the women marry when there are no men in the place?"

The conviction of certain O.B.U. sympathizers by Magistrate Burrell, registered in connection with the recent strike in Bellevue and Hillcrest, in which they were charged with obstructing miners on their way to work, was quashed in the appeal court before Judge McNeill. Mr. Putnam's arguments in defence of the accused were sustained, and the fines of \$25 each were ordered refunded.

The marriage of Mr. Delbert Ennis, eldest son of Mr. and Mrs. Samuel Ennis, to Miss Alice Grude Lote, second daughter of Mr. and Mrs. Francis Lote, of Hillcrest, was solemnized by the Rev. W. T. Young at the Union church on Tuesday morning at 10:30. Only the immediate relatives and friends were present. The bride was attended by Miss Marion Ennis, while Mr. James Lote supported the groom. Mr. and Mrs. Ennis left on the noon train for a brief honeymoon trip.

An automobile is one of the queerest creatures of creation. One of its chief stunts is colliding with or running over a bank. It has no regard for dogs, chickens, or human beings and never smiles at an excited horse. It bolts and snorts without any provocation whatever, and rides faster toward a blind-pig than towards a church. A preacher can address any kind of an audience but automobiles, because the latter absolutely refuse to keep quiet.

Dr. Olivier, took in the Calgary fair on Dominion Day.

"Peck's Bad Boy" drew a record crowd to the Coleman opera house last week.

Mr. and Mrs. F. M. Pinkney are spending Dominion Day at Calgary.

Work on the new West Canadian garage and general office building is being rushed.

We understand that work on the new picture theatre will not commence before August 15th.

Miss Gladys Purvie arrived from Nelson on Wednesday for a three weeks' vacation with her parents.

Sunday afternoon's ball game resulted in a victory for Blairmore over Coleman to the tune of 9 to 6.

About seventy men of the Macleod detachment of the R. C. M. P. were transferred to Banff this week.

Excavation for the foundation and basement for the new addition to the Blairmore school will shortly begin.

The Crows' Nest Pass archbishop is spending Dominion Day at Pincher Creek—the guest of High-Flying Shorties.

Complacency is an incompatible with greatness as bragadocio with courage. A truly great man never puts himself on the back.

Canada's trade with Newfoundland from 1896 to 1919 increased by 472 per cent, while Newfoundland's trade with the United States for the same period increased 912 per cent.

The next big attraction at the Coleman opera house will be "Pal o' Mine," coming July 21st. Watch for further announcements.

A man in Strathmore paid a fine for cruelty to a pig. He dragged the pig behind a motor car at the rate of ten or twelve miles an hour.

The regular monthly meeting of the Red Cross will be held at the home of Mrs. G. N. Elwin on Tuesday, July 13th. Tea will be served for 25 cents.

FOR SALE—1915 Model Ford Car, in first-class condition, with extra battery, new radiator and six good tires. Price \$400. Apply to Charles Sartoris, Blairmore.

The last relic of the Coleman printing office has been removed, the building having been sold to a party, who has moved it to the south side of main street, to be converted into a business block.

Allan Hamilton is now commander-in-chief of a Chevrolet dreadnaught. Allan is connected with so many benevolent and public positions now that he requires a car to convey his long list of titles.

The Blairmore Hardware Co. are the first to install a substantial incinerator for the destruction of rubbish around their premises. The incinerator system should be adopted by everyone and its use made compulsory by the council.

The Manitoba market is taking more coal this season than ever before, and there is no doubt that the demand on the mines will continue all through the year. Every thing points to a seven-million-ton output by the Alberta mines, as the likelihood of labor troubles in the mines has been removed by the new agreement.

L. H. Putnam attended the appeal court at Calgary last week, where we understand he was successful in setting aside three convictions registered by J. P. in the Crows' Nest Pass in connection with charges of operation of illicit stills. One of the convictions set aside was that of a resident of Hillcrest, who was convicted before Magistrate Burrell; another was a conviction registered against a Burnis rancher; while the third was that of a South Forker.

Rev. Father McCormick leaves Coleman Sunday night to visit his old home in Alexandria, Ontario.

School closed on Wednesday of this week, and the teaching staff, with one or two exceptions, has moved away to vacation points. Mr. Conway and Miss Fulton will spend a few weeks in Edmonton, Miss Taber at Macleod, Miss McLellan in New York and Eastern States points, Miss McCaughie and Mrs. Stebbings at Calgary.

John Stewart, chief engineer of Col. Peuchen's saw mill company, has arrived at Macleod to supervise the construction of dams and plant for the new mill. Three dams will be constructed. Already quite a quantity of machinery is on hand for pile driving.

A car collided with a milk wagon at Coleman the other day and sent can after can of milk splashing into the street. Soon a large crowd gathered and a short man had to stand on tiptoe to see past a stout lady in front of him.

"Goodness!" he exclaimed "What an awful waste!"

The stout woman turned around and glared at the little man and said sternly: "Mind your own business!"
